

Journal of Clinical Research Best Practices

Vol. 1, No. 2, February 2005

CODE OF ETHICS FOR INVESTIGATIVE SITES

by Norman M. Goldfarb

- We place the safety and welfare of our patients and clinical study subjects as our highest priority.
- We uphold the highest scientific standards of objectivity, accuracy and integrity.
- We comply with all laws, regulations and guidelines, as well as Company policies and procedures that govern legal and ethical conduct.
- We conduct clinical studies only if there is no undue cost or risk to the subjects, and only if they benefit the general public.
- We engage in only those research activities for which we are knowledgeable and competent.
- We do not discriminate against any potential subject based on race, gender, age, religion, national origin, sexual orientation or disability.
- We enroll only qualified and properly-consented subjects in clinical studies, in both spirit and practice.
- We do not coerce or unfairly influence people to participate in clinical studies.
- We protect the confidential information of subjects and patients.
- We speak and write the full and accurate truth; we do not improperly withhold information.
- We do not offer or accept improper inducements.
- We avoid conflicts of interest.
- We do not engage in ethically-unclear activities until the ethical questions are resolved.
- We challenge or report unethical conduct to the CEO.
- We work together to understand and resolve ethical issues.

Disclaimer: This Code of Ethics is a statement of good-faith intentions. It does not constitute any contractual or legal obligation beyond that required by applicable laws and regulations.

Norman M. Goldfarb is Principal of First Clinical Research, a provider of a clinical research best practices training, implementation and research. Website: www.firstclinical.com
